# PERSONAL RETIREMENT PROVISION

---

Tax relief is available in respect of personal contributions made to a registered pension scheme provided the individual is a relevant UK individual for the tax year in question.

The maximum amount of contribution that qualifies for tax relief in any tax year is the greater of:

- › The basic amount - currently set at £3,600, and
- › 100% of the individual's relevant UK earnings chargeable to income tax.

The limits are cumulative across all pension schemes rather than relating to one individual scheme.

In addition to the personal contribution limit each individual also has an annual allowance limit encompassing all pension contributions made in the tax year on behalf of the individual. The annual allowance for 2024/25 is set at £60,000, although it may be possible to carry forward the allowance for the previous three tax years.

Once contributions paid exceed the annual allowance then the individual becomes subject to an annual allowance tax charge on the excess.

The lifetime allowance limit for pensions savings which was £1,073,100 for 2022/23 has been abolished and there will be no lifetime allowance in 2024/25. However, the maximum Pension Commencement Lump Sum for those without relevant protections will be £268,275 which was 25% of the 2022/23 lifetime allowance.
