

Past Performance Document

Asset class: Government Bond
Product manufacturer: Utmost PanEurope dac
Production date: 01/01/2024

Past performance is not a reliable indicator of future performance. Markets could develop very differently in the future. It can help you to assess how the fund has been managed in the past.

What is being shown?

This chart shows the investment option performance as the annual percentage loss or gain per year over the last 10 years.

This is a simulation of your chosen investment option based on a typical exposure to the types of asset represented by the asset class.

This investment option was created to be a guide for potential Utmost PanEurope policyholders who choose similar investment options. This investment option was created in 2022.

This is a simulated performance.

Performance is shown before deduction of ongoing charges and calculated on an annual basis. Any entry and exit charges are excluded from the calculation.
