Competent authority with regards to this document: Autoridade de Supervisão de Seguros e Fundos de Pensões

Production date of this document: 01/03/26

You are about to purchase a product that is not simple and may be difficult to understand.

WHAT IS THIS PRODUCT?

Type:

The product is a unit-linked single premium life insurance contract. This product qualifies as a Structured Savings Funding Instrument (ICAE) and as an Insurance-Based Investment Product (IBIP), as defined under Regulation (EU) No. 1286/2014 of 26 November 2014 (PRIIPS Regulation).

Term:

You can choose to have no maturity date (whole of life option) on this product or to have a maturity date (mixed option). We may cancel the product if the investment value drops below €250,000. If you have chosen the whole of life option, the product will automatically terminate upon the death of the relevant life assured. If you have chosen the mixed option, the product will automatically terminate upon the death of the relevant life assured or on the maturity date if the relevant life assured survives to it. The product will automatically terminate on full surrender.

Objectives:

This is a life insurance product that provides you with exposure to financial markets by linking the value of your product to the value of a portfolio of assets which in turn depends on the performance of the financial markets. The investment options available for this product are different investment strategies. The investment strategy you choose determines the assets that may be included in the portfolio of assets. You must choose at least one investment strategy for your product. It will be executed by us or by the asset manager that you have selected and that has been approved by us. The selected investment strategy can be changed throughout the lifetime of the product. Examples of the class of asset that may be bought for the portfolio include the following, although we only permit certain types of assets within each class: funds, shares, bonds, money market instruments, commodities, derivatives (only for the purpose of reducing investment risk or facilitating efficient portfolio management) and structured products. Other assets may be permissible but require prior approval from us. The return you receive on your investment depends on how the portfolio of assets chosen by the asset manager perform. The return on the product will be lower than the return on the underlying portfolio of assets due to the deduction of charges applicable to the product. Information on the investment strategies underlying Private Wealth Portfolio Portugal is provided in the Specific Information Documents for each option.

Intended retail investor:

Private Wealth Portfolio Portugal is intended for investors who are seeking a medium to long-term investment and are willing to make a minimum initial investment of €500,000. The investor must be aged 18 or over to invest in Private Wealth Portfolio Portugal. The type of intended retail investor also depends on the investment option chosen and the risk and return profile of that option. Information on the level of risk and return of your chosen investment option is described in a Specific Information Document (SID) provided by your intermediary and available at utmostinternational.com. The SID will contain further information on the intended retail investor for your chosen investment option. Depending on the performance of the underlying investment options chosen, the investor may have to bear financial losses.

Insurance benefits and costs:

You must choose one or more lives assured for your product. The product has two options: whole of life option where a death benefit is paid upon the death of the relevant life assured, or the mixed option where either a death benefit is paid, depending on when the relevant life assured dies, or a survival benefit is paid. Death benefit: If the relevant life assured for your product dies we will pay the beneficiaries the standard death benefit. The amount payable to the beneficiaries in respect of the standard death benefit is the investment value. Survival benefit: If the relevant life assured survives to the maturity date, we will pay the beneficiaries the standard survival benefit. The standard survival benefit is the capital built up under the policy, which corresponds to the liquidated value of the investments made in the fund linked to the policy (the investment value). The investment value means the total market value of the investments included within the investment portfolio as calculated by Utmost PanEurope, with appropriate deductions for costs and expenses of managing, maintaining, valuing, acquiring and disposing of the investments, any tax due and debts relating to the investment portfolio, and interest charged in respect of those debts. Please see section 'What are the risks and what I could get in return?'

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Summary risk indicator

The summary risk indicator assumes you keep the product for 10 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less. You may not be able to end your product easily or you may have to end at a price that significantly impacts on how much you get back.

This summary risk indicator shows the range of risk classes of all underlying investment options offered within this product. The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified the risk classes of the underlying investment options as ranging from 1 out of 7, which is the lowest risk class, to 7 out of 7, which is the highest risk class. This rates the potential losses from future performance as ranging from a very-low level to a very-high level, and poor market conditions ranging from being very unlikely to impact to being very likely to impact the value of the product. **Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above. Please note this currency risk only applies when the product is not denominated in EUR.** The product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment. You will be penalised if you make a full surrender before the second anniversary of the product. Please refer to 'How long can I hold it and can I take my money out early?'. The risk and return of your investment varies on the basis of the investment option you choose. The value of the product is linked to the value of an underlying portfolio of assets. In this way, the performance of the product as a whole depends on the performance of the underlying portfolio of assets chosen by your asset manager. You can find specific information about the risk of your chosen investment option in the SID which will be provided to you by your intermediary and is available at www.utmostinternational.com. Please refer to the 'What is this product?' section for information on the insurance benefit the beneficiary receives when a covered event occurs. Information on the performance scenarios regarding each investment option is provided in the Specific Information Documents for each option. The tax legislation of the policyholder's home state may have an impact on the actual payout.

WHAT HAPPENS IF UTMOST PANEUROPE IS UNABLE TO PAY OUT?

Irish law protects the assets underlying the policyholder's policy by imposing strict capital management rules and controls to prevent insurer insolvency. We segregate the assets underlying the policy from our other assets and deposit them with independent institutions. In the unlikely event of our insolvency, policyholder's life insurance claims have absolute precedence over all other claims with regard to policyholder assets, once the costs of liquidation have been met. The policyholder is exposed to the risk of default of any relevant issuer, counterparty and/or credit institution with respect to the underlying assets of the product. The product is not covered by an investor compensation or guarantee scheme.

WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed: In the first year you would get back the amount that you invested (0% annual return). €10,000 is invested. The cost of the product to you will vary on the basis of the underlying investment option you choose. You can find specific information about the costs of your chosen investment option in the SID which will be provided to you by your intermediary and is available at www.utmostinternational.com. We are required by law to show you the costs of the product based on a premium payment of €10,000. However, please note the minimum premium for the product is €500,000.

INVESTMENT OF €10,000	IF YOU CASH IN AFTER 1 YEAR	IF YOU CASH IN AFTER 5 YEARS	IF YOU CASH IN AFTER 10 YEARS
Total costs	€239 - €820	€652 - €2,482	€1,286 - €4,904
Annual cost impact (*)	2.4% - 8.7%	1.3% - 5.0%	1.3% - 4.7%

(*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 3% before costs and 2% after costs if the annual cost impact is 1%. We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Composition of costs

ONE-OFF COSTS UPON ENTRY OR EXIT		ANNUAL COST IMPACT IF YOU EXIT AFTER 10 YEARS
Entry costs	% of the amount you pay in when entering this investment.	0.0% - 0.3%
Exit costs	% of your investment before it is paid out to you. Exit costs are stated as "N/A" in the next column as they do not apply if you keep the product until the recommended holding period.	N/A
ONGOING COSTS		
Management fees and other administrative or operating costs	% of the value of your investment per year. This is an estimate based on actual costs applied over the last year.	1.2% - 4.2%
Transaction costs	% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	0.1%
INCIDENTAL COSTS TAKEN UNDER SPECIFIC CONDITIONS		
Performance fees	The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years.	0.0%

Different costs apply depending on the investment amount. For example, the percentage of the management fee may decrease as the initial premium increases. The above costs are expressed in ranges and vary according to the investment options chosen by the policyholder.

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MY MONEY OUT EARLY?

Recommended holding period: 10 years

We chose 10 years as the recommended holding period because we recommend this product as a medium to long term investment related to tax advantages and aimed at achieving income objectives. The product has no required minimum holding period. However, you will be financially penalised if you make a full surrender before the early discontinuance period has elapsed (further details below). The policyholder has 30 days from the date the policy schedule is received to cancel it without having to invoke just cause, in which case they will be entitled to a refund of the amounts invested, less the disinvestment costs borne by Utmost PanEurope. Therefore, the amount to be reimbursed may not correspond to the amount invested. You may request a regular withdrawal, partial or full surrender from your product at any time by submitting a completed 'surrender request and regular withdrawal' form to CCSFRontOffice@utmostgroup.com with the original to follow to Utmost PanEurope dac, Navan Business Park, Athlumney, Navan, Co. Meath C15 CCW8, Ireland. You can request a copy of this form from your intermediary or by contacting us using the details provided above. However, if you make a full surrender before the first anniversary of the product you will be charged a fee of 2% of the investment value. If you make a full surrender after the first anniversary but before the 2nd anniversary of the product you will be charged a fee of 1% of the investment value. Partial surrenders and regular withdrawals are free of surrender charges and penalties. The minimum regular withdrawal permitted is €10,000 and the minimum partial surrender permitted is €25,000. Please refer to the 'What are the costs?' section above for more information on the impact of all fees.

HOW CAN I COMPLAIN?

You can complain about the product, about our conduct or the person advising on or selling the product by writing to the Client Services Team at Navan Business Park, Athlumney, Navan, Co. Meath C15 CCW8, Ireland or by emailing complaints@utmostgroup.com. You can also refer to the online guide 'How to make a complaint' published on the 'Contact Us' page on www.utmostinternational.com. You can also complain by writing to Autoridade de Supervisão de Seguros e Fundos de Pensões (ASF), Avenida da República 76, 1600-205 Lisbon, Portugal. You can also refer to the website: www.asf.com.pt/isp/PortalConsumidor/Reclamacoes. According to the applicable law, policyholders, insured persons, beneficiaries or related damaged third parties have the right to, in case of any disagreement in respect of a position taken by Utmost PanEurope or any dissatisfaction with the services provided by it, submit a complaint to the appointed Portuguese Ombudsman to the following contacts: CCSL Legal, mac@ccsllegal.com, Avenida da Liberdade, 262, 2.º esq, 1250-149 Lisboa, Portugal. Utmost PanEurope is a member of CIMPAS which is a Portuguese out-of-court procedure. Therefore, in the event of a persistent and definitive disagreement, there's the option, after exhausting all possible amicable remedies to opt to present the complaint to CIMPAS, which can be contacted at the following contacts: CIMPAS Lisbon Office: Avenida Fontes Pereira de Melo, No 11 – 9 Esq., 1050-115 Lisbon, geral@cimpas.pt CIMPAS Oporto Office: Rua do Infante D. Henrique, n. 3, Piso 1, 4050-297 Porto; cimpasnorte@cimpas.pt

OTHER RELEVANT INFORMATION

The product application booklet, terms and conditions, policy schedule, consumer information note and the tax information note contain important information and you should review these carefully before deciding to take out the product. Your intermediary will provide these documents to you. All these documents are legally required to be provided to you. Information about past performance of underlying investment strategies can be found here: utmostinternational.com/priips/past-performance/. Past performance information is produced for 10 years. Previous performance scenario calculations are published on a monthly basis and can be found here: utmostinternational.com/priips/performance-scenario/.
