Charge	All options
Dealing charge	<p>We will not take a dealing charge when purchasing the initial holdings selected on the International Premier Portfolio application form, or any holdings initially chosen for any extra investments. Additionally, we will not take a dealing charge for the first 20 sales or purchases of holdings in that policy year. We'll take a dealing charge for each subsequent sale or purchase of holdings linked to the value of the bond. The charge is deducted from the Cash Account. The charge taken depends on the currency of the bond.</p> <p>Dealing charges for 2019 are £21.00, €32.00 and \$32.00.</p> <p>If you request us to appoint a Discretionary Manager to manage holdings, they may take dealing charges when buying and selling holdings. These charges are likely to be different to the above and can be agreed with the Discretionary Manager. Please see Important Note 2 for more details.</p>
Custodian charge	<p>In addition to any dealing charge, a custodian charge is made for every sale or purchase of holdings linked to the value of the bond including initial holdings, except for cash deposits. These charges reflect external costs incurred by us when carrying out your instructions and are deducted from the bond Cash Account. If these external costs increase then we may increase your custodian charges. If we increase the charge for any reason, other than inflation, we'll let you know. The charge taken depends on the currency of the bond.</p> <p>Custodian charges for 2019 are £21.00, €32.00 and \$32.00.</p> <p>If you request us to appoint a Discretionary Manager, they may take custody charges when buying and selling holdings. These charges are likely to be different to the above and can be agreed with the Discretionary Manager. Please see Important Note 2 for more details.</p>
Valuation charge	<p>You will receive four valuations every year, covered by the charges above. If you request an additional valuation we'll take an additional charge equal to the quarterly administration charge. Please see Important Note 2 for more details.</p>
Discretionary management charge	<p>If we have appointed a Discretionary Manager to manage some or all of the holdings linked to the value of your bond, we will take a charge for this service. The charge will be equivalent to the fee levied by the Discretionary Manager. This charge will be allowed for in the value of the discretionary managed holdings.</p>
Fund management charges and expenses	<p>Fund Managers may apply an initial charge on the holdings bought by us or the Discretionary Manager. In addition, the cost of buying holdings may include an allowance for the associated expenses incurred by the Fund Manager, such as stamp duty. The initial charge and associated expenses will depend on the choice of holdings. For non-discretionary managed holdings, the Fund Managers will charge annual management charges. Fund Manager expenses may also be charged by reducing the price of each unit or share in the funds. These expenses are connected with buying, selling, valuing, owning and maintaining the assets. Depending upon the investor's choice of funds and how they perform a performance fee may also apply.</p> <p>For non-discretionary managed holdings, we have negotiated special terms with a number of leading Fund Managers that mean many funds can be accessed at no initial charge. We have also used our institutional buying power to effectively reduce the annual management charge of many Fund Managers' funds to a rate that would not normally be available to you. If you select holdings with any of these Fund Managers, we will credit a rebate to the bond Cash Account each calendar quarter on the valuation dates (the last Friday of March, June and September and the 31 December), thus reducing the effect of the annual management charge. For discretionary managed holdings similar terms may have been negotiated by the Discretionary Manager.</p>

Important Notes

1. If you decide to make an extra investment into your bond later, your extra investment will follow the same charging structure option as your initial investment.
2. We may increase the quarterly administration charge or valuation charge if the cost of managing your bond increases. Reasons would include inflation, changes in taxation, regulation or the law, or increases in the cost of the underlying administration of the bond. We may also increase the dealing and custodian charge each year for inflation or if the external costs charged to us are increased. The charges will normally increase for inflation in January each year. When we increase charges for inflation we will use the Consumer Price Index of Ireland or any index that may replace it.
3. The establishment charge is expressed as a percentage of your initial or extra investment. We'll deduct it on the last Friday of March, June and September and on the 31 December.
4. Tax rules may change in the future. Please speak to your Financial Adviser for further advice.
