You are about to purchase a product that is not simple and may be difficult to understand.

WHAT IS THIS PRODUCT?

Delegation is an international single premium investment bond with a minimum initial premium of £100,000. This is a life assurance bond and, unless surrendered earlier, the contract will end on the death of the last or sole life assured. It has no set maturity date. On surrender there is a nominal life insurance element of £1 per policy segment still in force. If the value in the bond falls below £10,000, Utmost Ireland dac reserves the right to surrender it.

Delegation can be linked to a wide range of underlying investment options including collective investments and equities, and the return on the bond depends on the performance of the underlying investments. Your investment is required to be managed by an external manager on a discretionary basis. You must be willing to give responsibility for your investment decisions to the external manager. If it is perceived that you have directly or indirectly influenced the selection of assets, the tax treatment will be affected which could result in adverse tax consequences.

Delegation should be considered if you can afford to meet the minimum premium amount for investment and you are aged 18 years or over.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

The risk indicator assumes you keep the product for 10 years. The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 1 to 5 out of 7, which is the lowest to a medium-high risk class. This rates the potential losses from future performance at a very low to medium-high level. The actual level of risk of this product and how your investment could perform will depend on your choice of underlying investment option(s). This product does not include any protection from future market performance. You could lose some or all of your investment. You can surrender your investment at any time without incurring any exit charges.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN? (CONTINUED)

Be aware of currency risk. Payments may be received in a different currency from that of the investment options selected, so the final return will depend on the exchange rate between the two currencies. This risk is not considered in the summary risk indicator shown. Information on the underlying investment options can be found in the relevant fund guides.

WHAT HAPPENS IF UTMOST IRELAND IS UNABLE TO PAY OUT?

If Utmost Ireland dac were to become unable to meet our liabilities, the UK's Financial Services Compensation Scheme (FSCS) may cover your bond if you are an eligible claimant by being habitually (permanently) UK resident at the time the contract commenced. The cover under the FSCS is normally 100% of the value of the claim with no upper limit. For further information see <http://www.fscs.org.uk> or telephone 0800 678 1100 or 020 7741 4100. There is no insurance compensation scheme available in Ireland that covers Utmost Ireland dac.

As the bond is an insurance product, Utmost Ireland dac owns all the holdings linked to the bond. You do not own the holdings yourself. However, if an institution responsible for the externally-linked holdings or other assets within the holdings linked to the bond were to fail, you may have no right to participate in any compensation scheme. This is because you are not the owner of the holdings linked to the bond. The amount (if any) which Utmost Ireland dac may recover under such a scheme may be substantially less than the amount you may be able to recover if you had owned the holdings directly.

WHAT ARE THE COSTS?

Costs over time

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the product itself, for three different holding periods. They include potential early exit penalties. The figures assume you invest £10,000. Or currency equivalent. The figures are estimates and may change in the future.

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.
