A1 - TYPE OF CONTRACT

It is important for you to understand the differences between the two options available, **Life Assurance** and **Capital Redemption**.

Life Assurance - If you choose this option all the policies under the bond will automatically end on the death of the last life assured. At this point the policy will pay out a small degree of life cover equal to £1 per segment still in existence on the death of the last life assured. Up to 6 lives assured can be appointed and once a life assured is appointed they cannot be changed in the future. If this option is chosen you must complete section D on page 10.

Capital Redemption - Under this option there are no lives assured. All the policies under the bond will remain in force for 99 years or until the policy falls below the minimum value stated in the Policy Conditions. At the end of the 99 years all policies are subject to a maturity value as stipulated in the Policy Conditions.

A4 - PRODUCT MANAGEMENT CHARGE

Evolution uses our Flex-Charge charging structure, enabling you to select the preferred balance between the level of initial (one-off) Product Management Charge and the level of ongoing quarterly Product Management Charges. For more information on Flex-Charge charging structure, see our **Guide to Charges** which is available from your financial adviser or from our website. Your financial adviser will be able to help you select the option that is best for you.

A5 - CURRENCY OF THE BOND

Premiums received in currencies other than the requested base currency of the bond, will be converted at the exchange rate available on the day of policy issue.

Currency fluctuations may affect the value of the investment.

A6 - NUMBER OF SEGMENTS

As noted within the application, if a number of segments is not specified, the policy will automatically default to 60 segments.

The minimum value per segment is £500 and the maximum available is 9,999 segments.

The number of segments that make up the bond can affect the flexibility, including the taxation of the bond at the time you want to take benefits. As such it is very important that you discuss this with your financial adviser before submitting the application and take into account not only the size of the investment, but also any future financial objectives.

- › Cash deposits from a number of banking institutions are available. For information about available cash deposits, contact our Welcome team on **+44 (0)1624 653 251** or speak to your financial adviser. It is important to note that cash deposit rates cannot be guaranteed.

L3 - DEALING ACCOUNT

Complete this section if you wish to retain a part of the initial investment in cash within the Dealing Account to cover ongoing deductions.

It is possible for the account to become overdrawn; to avoid this, you should consider retaining a cash balance within the Dealing Account to cover the bond charges and regular withdrawals. Once the balance of the Dealing Account reaches a negative value we will automatically sell units from the highest valued asset. The purchase or sale of units may incur a dealing charge per transaction. - › Receive direct reporting from the EMC including but not limited to details of cash balances and safe custody holdings and value within the Account

You are able to contact the nominated firm directly to obtain details of the charging structure being applied to the portfolio linked to the value of the bond. Such charges may include, but are not limited to the provision of the following services: investment management, custody, transactions, banking or payment fees.

In this section of the Application form, we ask you to choose the basis on which you would like us to appoint the firm you have nominated to manage the portfolio. Below is a brief explanation of each service basis.
